Dear Sir,

Testimonial - Airport Solutions Ltd

Staff from Airport Solutions have been engaged by Dubai Airports for over a 12 month period to write, develop and implement the Safety Management System and Standard Operating Procedures for the new Dubai World Central Airport – Al Maktoum International.

Their work was a fundamental part of the Airport's Certification process which has been commended throughout by both the Dubai and General Civil Aviation Authority.

Due to the high standards and quality of work produced we have recently engaged their services to review the Aerodrome Manual, Safety Management System and assist with a comprehensive review of Operating procedures at Dubai International Airport.

As an Airport Operator we have found their standards, knowledge and dedication to the task in hand to be "first class" and therefore would not hesitate in recommending their services to other Airports.

Alasdair Carmichael
Head of Airside Operations DWC – AMI
