To whom it may concern,

Testimonial – Airport Solutions Ltd – Dubai Airshow

Airport Solutions Ltd were engaged by Dubai Airports to assist with the technical and operational coordination of the 2009 Dubai Airshow.

Their specific tasks involved:-

- Writing procedures and gaining approval for the Flying Display Box (including assessment of obstacles).
- Writing operational procedures for the Static Park (150 aircraft) and coordinating with all participants.
- Providing Safety coordination on behalf of Dubai Airports with the Flying Display Committee, ATC and Display pilots.
- Undertaking all Risk Assessments for the Air Display including special “flypasts” and manoeuvres.
- Organisation and coordination of the Air Display Emergency Procedures, training of staff and testing of procedures prior to the Airshow via the organisation of 2 Emergency Exercises.
- Training of Operational and Exhibition staff in procedures for the show
- Providing Independent Safety Oversight of all activities including the Static Park, Maintenance Area, Spectator Areas and Exhibition halls.
- Provision of independent Accident and Incident Investigation on behalf of Dubai Airports
- Holding daily “safety and coordination” briefings with key participants.
- To gain approval from the Civil Aviation Authority on behalf of Dubai Airports for the display.

The work ethic of the Team from Airport Solutions was commended by all parties involved with the Airshow, specifically the Civil Aviation Authority, Air Crews and the Airshow Organising Committee.

To hold an Airshow at a major International Airport requires a totally dedicated and enthusiastic Team who have exceptionally high safety standards and an in depth knowledge of the business – we had that with Airport Solutions Ltd.

I therefore have no hesitation in recommending their services to the organisers of other Airshows and Airports throughout the world.

Jamal Zaal
VP Airside Operations
