To Whom It May Concern:

Airport Solutions Ltd

Airport Solutions Ltd were contracted by Occidental Mukhaizna LLC to give advice for the construction, development and operation of a new Aerodrome (Mukhaizna) in Oman.

The Team from Airport Solutions proved to be an excellent investment for Occidental providing expertise in a variety of Technical disciplines in this highly regulated area.

On all occasions Airport Solutions were able to adhere to strict "deadlines" and provide Occidental with an exemplary level of service. This included aerodrome design, writing technical procedures (Aerodrome Manual, Security Manual and Emergency Plan), gaining approval from the regulator for operations and providing staff for the initial Management of the Aerodrome.

As a result of their desire and commitment to the project, live Air Operations were able to commence within 6 months of the original concept which was an exceptional achievement.

Following the commencement of Scheduled Air Services, Airport Solutions provided Technical Training for Occidental staff and a Safety Oversight Programme which has ensured continuity of safe operations in accordance with International and National Aviation regulations.

I have no hesitation in recommending Airport Solutions Ltd who were able to integrate and fully understand our company objectives whilst consistently delivering a friendly and highly Professional service.

Regards,

Steve Pitchers
