

Airport Solutions Ltd Training Courses

Dubai Airports
Managing the World's Largest Airports

To whom it may concern

During the last 12 months I have attended Airside Operations, Emergency Planning and Safety Management training courses designed and presented by staff from Airport Solutions Ltd.

The training was presented to a very high standard and the experience of each of the training staff was very evident. Theoretically and practically the information which delivered during the courses will help equip any participant to develop further in the airport operations.

Active participation was very much encouraged and made the course an enjoyable learning experience including the knowledge check which is very vital for the success and implementation of the training.

Many aspects were demonstrated through the use accident case studies and other group exercises designed to bring out each delegates own experience to a scenario.

I would very much like to recommend Airport Solutions Ltd to anybody who needs any Safety Management or Operational Training at their airport.

Sincerely,

Ebtesam Saif Al Shamsi
